

## WORKSHEET: LIGHTING PLANNING

Answer these questions for each room that will be updated to help you discover your lighting needs.

What is the age of the home?

What are the ceiling and wall conditions?

Where are the electric outlets located?

How do you currently use the room? What activities take place in the room?

What activities do you want to do in the room but cannot due to inadequate lighting?

What is the desired focal point of the room? (i.e. view outside a window, fireplace)

What features don't you want to see?

What types of lighting do you prefer? Decorative features like wall sconces? Recessed lights? Table lamps?

---

After you've completed this form, download and fill out the Lighting Room by Room Worksheet. Then, share your answers with your lighting designer and he/she can help plan solutions and develop a lighting plan that will suit your needs.
